

## R-130A PRE SEALER

A Fine Liquid Polishing paste for Gel Coat and hard two component painted surfaces. R-130 A removes fine dust particles after painting and small fine scratches after fender damages, etc. R-130 A has a rating of 8000 grit.

### Instructions

Instructions for use: Shake well before use. Fill a sprayer with water and make the surface damp. R-130 A is applied with a moist sponge on the damp surface. Keep surface damp using the sprayer.

**MACHINE POLISH** only with a lambskin buffer or polishing disc.

Continue polishing until a deep gloss is obtained. Thoroughly clean the surface with R-140, then the surface is ready for the last sealing with R-130 B.

NB: If original surface is chalky and dull the treatment must begin with R-120.
